

The distinctive Strike Force® grip of the Sentry Baton is complemented by 4130 steel shafts and a black chrome finish. The Sentry Baton has a powder coated steel cap and aluminum base retaining clip.

Function of the Sentry Series is identical to that of ASP 4140 Friction Batons. The design accepts all ASP Logo, Grip, Leverage and Lanyard caps. The Sentry is compatible with ASP BreakAway® and Nexus Baton Clip attachments. Sentry Batons may be carried in Federal® or SideBreak® Scabbards.

The 60 durometer Santoprene handle of the Sentry Baton provides a firm grip under the most adverse conditions. Designed for the security professional, the Sentry Series offers a moderately priced alternative to ASP Friction (4140) expandables.

# Sentry Batons

## Background

4130 alloy steel tubing

## Specifications

### Retracted Length

16	6.2"	15.75 cm
21	7.7"	19.56 cm
26	9.5"	24.13 cm

### Expanded Length

16	15.6"	39.70 cm
21	20.0"	50.80 cm
26	25.6"	65.02 cm

### Weight

16	13.2 ounces	374 grams
21	16.3 ounces	462 grams
26	20.0 ounces	567 grams

### Diameter

1"	25.4 mm
----	---------

### Locking System

Friction

## Tubing

4130  
40-45 RC  
201,000 PSI Tensile

## Finish

Black Chrome

## Tip

Carbon Steel

## Grip

Overmolded  
Santoprene  
Strike Force® design

## Handle

Zinc undercoat  
O-ring sealed

## Cap

Steel  
Powder coated

## Retention Clip

Spring steel  
Patented taper design  
Zinc Dichromate coated  
Aluminum base

## COMPARISON
